

Pre-S1 Summer English Elite Programme

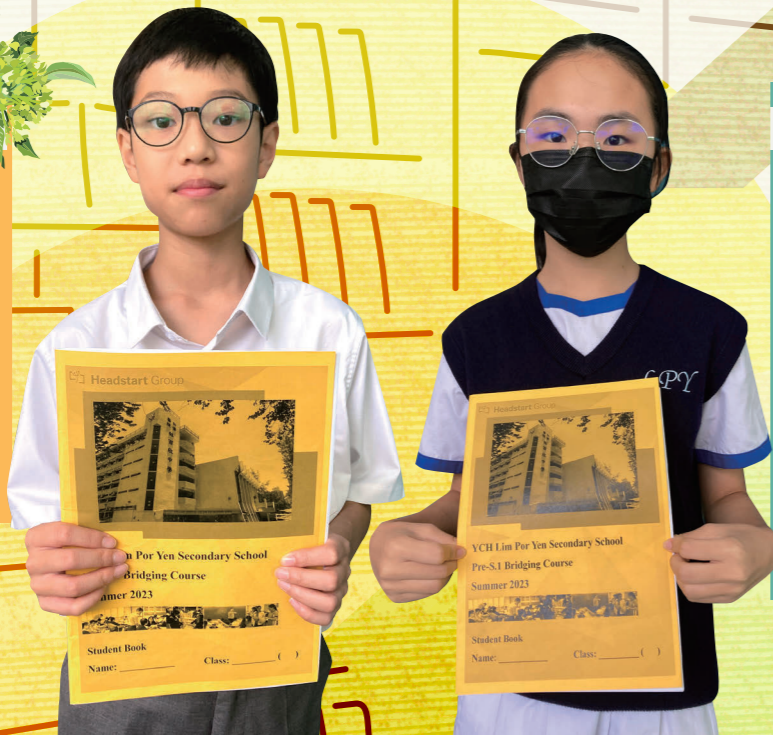

中一暑假英語拔尖班

A Summer English Elite Programme was successfully organized in late July 2023. It aimed at offering a unique opportunity for pre-Secondary 1 students to enhance their language skills, with a strong focus on developing speaking and listening skills, as well as improving reading and writing abilities. Through engaging activities and the guidance of a dedicated NET (Native English Teacher), students gained valuable language proficiency, setting them on a path towards academic excellence and future success.

1A Hugo Chang

I love communicating with the NET teacher! When we were interacting in English, I learnt more vocabulary and I found it's a good way to boost my grammar as well!

1A Hayley Lai

Being with the NET teacher is a lot of fun! The lesson atmosphere was engaging and casual, and I didn't feel stressed to use English at all. Another bonus is that I have made some good friends in the course.

S2 Movie Appreciation 中二電影欣賞班

The elite programme aims at developing students' proficiency in speaking and listening in the use of English through watching movies. Students enjoy different genres of movies, and at the same time, learn about the usage of the language in talking about cinema through viewing, playing games and participating in a variety of interactive activities. It is also hoped to stimulate and provoke students' thoughts and creativity.

Mr. Calvin

The NET, Mr. Calvin, is here! It's truly a joy to live in such a convenient place that has accessible nature just around the corner. I can't get enough of the beautiful hikes and relaxing trips to the seaside. Are you getting your daily dose of vitamin D on the weekend too?

Being a part of the LPY family is truly a pleasure. Just as much as teaching, I enjoy spending time with all of you, and I hope to talk with you more and more. Even if you don't know much English or don't have the confidence yet, say hi to me when you see me. 😊

My best advice: Try everything and anything because you can and you should.
